PROFESSIONAL SUMMARY

Fresh B.Tech graduate specializing in React Native and Full Stack development with hands-on internship experience building production-grade web and mobile applications. Proven ability to deliver real-time systems using Socket.IO and Agora SDK, multi-tenant SaaS platforms, and scalable REST APIs. Seeking a junior developer role to contribute modern TypeScript-based mobile and web solutions.

TECHNICAL SKILLS

Mobile Development:	React Native, TypeScript, Expo
Frontend:	React.js, JavaScript (ES6+), Tailwind CSS, Material UI, HTML5, CSS3
Backend:	Node.js, PHP, REST APIs
Real-Time & Integrations:	Socket.IO, Agora SDK (Audio/Video), QR Code, OpenStreetMap
Database:	MySQL
Tools & Version Control:	Git, GitHub, VS Code

WORK EXPERIENCE

Web Developer Intern — El Codamics, Coimbatore

Jan 2026 – May 2026

- Built a Property Scanner mobile app (React Native + TypeScript + Expo) with camera image capture, QR code generation, and QR-based property verification for end-to-end property management.
- Engineered real-time communication features: group chat using Node.js + Socket.IO and 1-on-1 audio/video calling using Agora SDK, supporting concurrent multi-user sessions.
- Developed a document management module (Docx Editor) enabling structured document creation and editing within a web application.
- Designed responsive, accessible UI components using React.js, Tailwind CSS, and Material UI; collaborated with team to debug issues and optimize application performance.
- Worked across the full stack using PHP and MySQL for backend APIs and data persistence.

Web Developer Intern — Accent Techno Soft (ATS), Coimbatore

Jan 2025 – Feb 2025

- Developed and improved user-facing web interfaces using HTML and CSS, enhancing website usability and responsiveness.
- Collaborated with the development team to implement reusable UI components.

PROJECTS

1. Property Scanner Mobile Application | React Native · TypeScript · Expo · Node.js · Socket.IO · Agora SDK · PHP · MySQL

- Full-featured property management app with camera-based registration, QR code generation/scanning, and property detail retrieval.
- Integrated real-time chat (Socket.IO) and audio/video calling (Agora SDK) supporting multi-user concurrent sessions.

- Built RESTful backend APIs in PHP with MySQL for authentication, property storage, and media management.

2. Ride Booking System (Ola Clone) | React Native · Node.js · PHP · MySQL · OpenStreetMap

- Built separate Driver and Passenger mobile apps with live location tracking, route display, and turn-by-turn navigation via OpenStreetMap (OSM).
- Implemented ride booking, driver-matching algorithm, OTP verification, trip tracking, and real-time payment status sync between both apps.
- Designed dynamic fare calculation engine based on distance and time with responsive React Native UI.

3. Multi-Tenant Business Website Builder | React.js · Node.js · PHP · MySQL · JWT

- Built a SaaS platform enabling multiple businesses to create and manage custom websites via unique URL-based dynamic routing.
- Developed dual admin dashboards (super admin + client) with theme customization, subscription management, and automated site activation/inactivation.
- Implemented secure authentication using JWT and bcrypt password hashing; CMS features allow clients to edit content and settings in real time.

EDUCATION

B.Tech in Information Technology — Nehru Institute of Engineering & Technology 2022 – 2026

CGPA: 8.0 / 10 • Expected Graduation: May 2026

HSC (Class XII) — Raj Matriculation Higher Secondary School, Tamil Nadu 2021 – 2022

Score: 80%

CERTIFICATIONS & TRAINING

- HTML Training — IIT Bombay (via Naan Mudhalvan, Anna University)
- Python, Artificial Intelligence & Machine Learning — Great Learning
- Data Science — Wipro TalentNext Digital Skills Program

WORKSHOPS & WEBINARS

- Machine Learning Workshop — NIET (1 Day, 2024)
- Artificial Intelligence & Data Science Workshop — NIET (5 Days, 2024)
